THE FUNDAMENTAL VALUES OF NURSING -

Nursing is -

Caring

Art

Science

Character

Intuition

Empathy

Health promotion
maintenance.

Restoration of life.

Wellness, prevention

Nursing is a science; research.

Nursing is evidence based EBN

Nursing is concerned with health promotion,
health maintenance, and health restoration.

Nursing process model -

You cannot care ~~to~~ learn to care
from a book -

Customer care kindness.

Nurses are the heart of health care.

Nurses dispense, interpret, interpret as

long is intent over a prescription.

* when you are a nurse
you know that was less.

You will have a life or a life will

work young

— Do not influence other students in your class.
